THE ORISSA MINERALS DEVELOPMENT CO.LTD
(A Govt. of India Enterprises)
INVITATION FOR EXPRESSION OF INTEREST(EOI)

For installation and maintenance of closed circuit TV camera for surveillance of movement of minerals in Six Iron Ore and Manganese Ore mines of OMDC situated near Barbil,Dist.Keonjhar,Orissa.

Background:

The Orissa Minerals Development Co. Ltd operates six mines which are located near Barbil,Dist.Keonjhar,Orissa.The company is the oldest bulk supplier of Iron Ore and Manganese Ore of various grades to different Steel Plants ,Sponge iron Plants .Currently OMDC has approved production capacity of 2.2 MTPA of Iron Ore.

Scope of Works:

OMDC will enhance their production from 2.2 MTPA to about 10.2 MTPA by 2015-16. OMDC has deployed Armed Central Industrial Security Force(CISF) personnel at strategic location. Private security agency is also deployed in certain location of the mines. Due to allegation of theft of minerals from different mines in the area & in the whole of state of Orissa , to curb the menace , the state Govt. has proposed the mine owners to use latest technology of satellite emissary to check movement of trucks, machinery & men to avert illegal mining . OMDC therefore proposes to install closed circuit TV camera to monitor the mine operations and to prevent unauthorized movement of trucks ,machineries & men inside the mines area and office premises also.

Procedure for Submission of Eoi:

Interested parties may submit their EOI's along with the following details

- Particulars of the company along with background of operations.
- Draft project report covering the proposed scope of work .
- Budgetary estimate of cost for the proposed scope of work.
- Any other assistance required from OMDC to specify.

THE BISRA STONE LIME COMPANY LIMITED
(A Govt. of India Enterprises)

INVITATION FOR EXPRESSION OF INTEREST (EOI)

Expression of Interest is invited from interested agencies for utilization of Reject materials generated lying at BSLC Mines.

Background:

Bisra Stone Lime Company Limited (BSLC) is mining and selling Dolomite and Limestone at Birmitrapur, Dt-Sundargarh, Odisha. The major customers of BSLC are all steel plants of SAIL, NINL, Sponge plants and crusher plants situated in the vicinity.

Opportunity:

As per the existing approved mining plan, the production is 9,60,000 tonnes per annum. After obtaining environmental clearance it is proposed to enhance the production up to 5 million tonnes per annum (MTPA) in phased manner. It is proposed to increase production up to 2 MTPA by 2012-13 anticipating the increase in demand of SAIL plants. In course of Mining substantial quantity of reject material will be generated besides huge stock of reject materials which is already available may be suitable for making roads and buildings. The party may also indicate the possibility of utilization of the reject material for any other product and may submit their proposal with process details involved. The mines are well connected with rail and roads (National Highway No.23).

Procedure for Submission of EOI:

Interested parties may submit their EOI furnishing the following details .

- Particulars of the company/firm along with background of operations.
- Business where reject materials will be utilized and tentative plan for converting to stone chips for construction of building works and road works.
- Proposed quantity of reject material to be lifted from the Mines.
- Any other assistance required from BSLC.
- Parties may also mention any commercial aspects involved.
