Once the rate is accepted by OMDC the price shall remain firm during the period of contract. OMDC will be under no obligation to communicate to the bidders in case the rate obtained on the service providers system is not acceptable.

5. **BIDDING:**

The price bidding would consist of a single stage.

a) In this Stage of Online Auction, the bidders have to bid for the PMT price and the number of units they want to book at that price with a maximum limit of Units for which bidders had provided Pre Bid EMD.

b) Methodology for this stage online bidding is mentioned here under.

The above is illustrated below for unit wise bidding.

Assume that the total quantity available is 580 Units and bidders bid for certain number of units at a certain price as illustrated in the following.

Bidder	Bid Time (Hr: Min)	Bid Quantity (no. of Units)	Bid Price (Rs/Mt.)	Allocated (no. of units)
B	9.40	100	9500	100
F	9.39	200	9250	200
D	9.36	150	9250	150
A	9.32	100	9250	100
E	9.34	100	9250	30
C	9.30	300	9000	00

Explanation for the Allocation of Quantity

A. Bidder B is the highest bidder @ Rs.9500/MT, hence the system allocates his bid number of units i.e, 100 units.

B. There are 4 bidders @ Rs.9250/MT.

Since bidder F's bid was for 200 units (Highest at Rs.9250/MT) the system allocates his bid quantity in full.

Bidder D's bid was for 150 units and since the quantity was still available at Rs.9250/MT, the software allocates bidder D 150 units.

Since bidder A placed his bid earlier than bidder E ie 9.32 Hrs hence the software gives first preference to Bidder A and allocates him the available quantity first.

After this allocation, since only 30 units are available the same is allocated to Bidder E.

Since, all the quantity is exhausted at higher bid price than Rs.9000/MT, therefore no units are allocated to Bidder C. If Bidder C wants to win any units then he/she has to place bid in terms of higher price.

So in summary, allocation is carried out by the e-Sale software on following basis:

1. First preference is given to highest bid price
2. If two or more parties bid the same price then preference for allocation is given to party that placed the bid for a higher quantity.
3. In case two or more parties bid the same price and quantity, then preference is given to the party that placed the bid earlier.

- SD will be released after one month from the date of completion of the contract.

The SD will be forfeited:

- Each lot will be treated as an independent contract and will be bound by the terms & conditions specified in the catalogue.
- For each individual lot, the successful bidder has to lift minimum quantity against each of the concerned lots as specified in the catalogue.

In case they are unable to lift the minimum quantity (Lot/Unit Size minus tolerance limit as specified in the catalogue) against each of the concerned lot ,then the amount of SD for the incomplete lots will stand forfeited.

However in case of allotment of multiple lots to a single bidder, minimum quantity (successful lifting)shall be determined on the basic of whole allotted quantity minus tolerance limit as specified in the catalogue.

Mode of Dispatch:

The delivery of materials in terms of Delivery Order issued shall be taken by the successful bidder (SB) within the stipulated period mentioned in the Delivery Order and also strictly according to any other instructions / delivery programme given by the concerned OMDC Management from time to time.

The Successful Bidders shall make necessary arrangements for lifting and transportation of materials Ex-Stock/plot basis at their own cost.

i. Responsibility of OMDC:-

Director (Mines) under rule 10(5) of Orissa Minerals (Prevention of theft, smuggling and illegal mining & regulation procession, storage, trading and transportation) Rules, 2007 for obtaining ores removal permission. After completion of all formalities DDM (Joda) will issue the stack removal permission in Form- "L" mentioning dimension of stack, quality, quarry particulars and lifting period with transit pass in Form – "M".

ii. Responsibility of BUYER:-

If the bidder fails to lift the quantity even during the extended period, with the closing hours of the extended period the EMD and Material value as per clause of abandoned Goods for the concerned lot shall stand forfeited.

The party has to ensure that all the pollution norms/Forest Rules as applicable in the State during loading and transportation are followed. For any violation of pollution norms/Forest Rules by the party OMDC can't be held responsible on any account in this regard.

CLARIFICATION FOR ROAD DESPATCH :

In case of allotment of multiple lots to a to a single bidder, the successful bidder shall be determined on assumption that the bidder has successfully lifted the full minimum quantity (Lot quantity minus tolerance limit) of first lot and the residual quantity shall then be adjusted against minimum quantity of next lot and so on. Under this method the Security Deposit (S.D)of such lot will stand for forfeited against which the bidder has failed to lift the minimum quantity. For further clarification the following example is being given :-

Lot Size : 4000 MT ,Quantity tolerance +/- 15%.
Allotted Quantity to the buyers 12000 MT i.e. 3lots of 4000 MT.

Example A.

If the buyer lifted 10320 MT against allotted quantity of 12000 MT (3 lots) i.e. 86% of aggregate quantity (14 % less than the full allotted quantity),the calculation shall be as follows.

	1 st Lot	2 nd Lot	3 rd Lot	Total
Lot Size.	4000 MT	4000 MT	4000 MT	12000MT
Tolerance @ 15%.	600 MT	600 MT	600 MT	1800MT
Minimum quantity to be lifted	3400 MT	3400 MT	3400 MT.	10200MT
Distribution of the total Lifted qty among the Lots	3400 MT	3400 MT	3520 MT (balancing figure)	10320MT

In this case it is considered that the buyers has successfully lifted the minimum quantity of all the 3 lots against their allotted quantity.

Example B.

If the buyer lifted 10080 MT against allotted quantity of 12000 MT (3 lots) i.e. 84% of aggregate quantity (16 % less than the full allotted quantity),the calculation shall be as follows.

	1 st Lot	2 nd Lot	3 rd Lot	Total
Lot Size.	4000 MT	4000 MT	4000 MT	12000MT
Tolerance @ 15%.	600 MT	600 MT	600 MT	1800MT

Minimum quantity to be lifted.	3400 MT	3400 MT	3400MT	10200MT
Distribution of the total Lifted qty among the Lots	3400 MT	3400 MT	3280 MT (balancing figure)	10080MT

In this case it is considered that the buyers has successfully lifted the minimum quantity of 1st lot and 2nd lot but has failed to lift the minimum quantity against 3rd lot .Hence his S.D for the 3rd lot shall stand forfeited.

Payment for lifting of material:

The successful bidders shall be required to deposit non-interest bearing advance payment covering full value of 100% of the material within 10 working days from date of issuance of sale offer.
